The good news about the unyielding passage of time is that as we get older each year, advancements in skin technology keep improving. In fact, the skincare field is progressing so rapidly that each day we're in a better place than we were the day before in terms of what's available to treat the skin woes of the world.

To help you get the best skin of your life this year, we're highlighting the buzziest new treatments, products, and devices on the block, so you can put your best face forward in 2015. **Keep reading to learn about the most talked-about new options for treating, masking, and preventing acne, scars, wrinkles, fine lines, and more.**

ULTRATIGHT NON-INVASIVE FACIAL LIFT

For: Turning the clock back without surgery.

What: An exclusive to cosmetic dermatologist and industry leader **Dr. Paul Jarrod Frank**, UltraTight is a new, minimally-invasive neck and jawline procedure performed under local anesthetic with no cutting. During the treatment, fat is removed from the neck and jowl area while the area is tightened from within using ultrasound technology.

Price: \$5,000
