SHEENING AND SHINING

THIS MONTH'S ECLECTIC GROOMING FIX FEATURES THE USUAL NECESSITIES AND INTRODUCES THE DISTINGUISHED GENTLEMAN TO A BLISSFULLY SCENTED CANDLE THAT MAKES IT EVEN MORE INTERESTING TO IMPRESS HIS SIGNIFICANT OTHER(S).

LIGHT UP, LIGHT UP

Giles Deacon has certainly been popping in and out of the fashion wave recently. The British designer has now returned to the so-called limelight by teaming up with celebrated beauty and grooming brand Molton Brown to design a silver-engraved candle snuff lid. Only 400 pieces will be available worldwide, each supplied with a single-wick unisex Patchouli & Saffron candle that perfectly complements the lifestyle of a modern and debonair gentleman.

IN THE AIR

Mark Ronson is always up for a great collaboration (he's even producing Paul McCartney's new album), and his latest venture as the handsomely black-tie clad face of Fendi's new men's fragrance, 'Fan di Fendi Pour Homme', is no exception. After waiting nine years for a new scent from Fendi, the Italian fashion house has now created an eclectic mix of notes ranging from Sicilian tangerine and pink peppercorn to Texan cedarwood. Whether you're hitting the stage or enjoying your Thursday night out, this is the perfect scent.

PACK UP TIME!

If you're planning a sunny European vacay to escape the insanely hot monsoon season, pack all your grooming essentials in these new travel pouches from Jack Spade's spring/summer 2013 collection. Enjoy.

PERFECTING WITH THE PERFECTOR

For the refined man who requires more than basic moisturisers to achieve what he considers an adequate look, Biotherm Homme's skin-optimising moisturiser 'Total Perfector' might seal the grooming deal. Featuring a breakthrough gel-cream ingredient called 'P. Pavonica Mediterranean Sea Algae', the non-greasy moisturiser has a 24-hour hydrating power that promptly smoothes and quenches your skin.

GOODBYE DARK CIRCLES

Panda eyes can somewhat reflect your unwanted relationship with insomnia. To reduce this growing concern, Goodskin Labs' new hybrid 'Circleplex-2 Dark' formula has a special instant-gratification trick that guarantees it will make your lower-lid area as evenly toned as the rest of your face. The formula comes in a 2-in-1 dual container with both a colour-correcting day cream and night cream that work together to ensure total reduction of dark circles.
