thesmartfashionistas They say "New Year, New You". I say "New year, Better Me" 🧑🏻‍👧  
No New Year resolutions here. I want keep doing what I am doing while being the best version of myself.

As you know I workout 3 times a week, however I have struggled to shed the last bit of baby fat on the tummy area. Then I discovered EMSculpt thanks to @drpauljarrodfrank . This procedure uses high-intensity, precision-focused electromagnetic energy to trigger maximum involuntary muscle contractions, and results in body fat loss and growth in muscle fibers. It is ideal for people who are physically active but need help achieving extra definition! Head to my stories for more information #emsculpt #newyearmotivation
